

Epic Beaker CP —
Specimen Lifecycle
Workflow

Respiratory Pathogen 4-Plex
Panel

Document Information

Overview

1. Order Entry

Emergency Department, OR,
Inpatient → STAT (automatic)

Outpatient / Ambulatory →
Routine (default)

Provider may manually upgrade
any order to STAT at time of
entry

2. Specimen Collection

3. Receipt and Accessioning

4. Routing Decision

Cepheid GeneXpert Infinity —
scan specimen ID label, scan
cartridge barcode, select exact
test configuration before loading

Hologic Panther — specimen
displayed as WHITE in rack if
not received or test not attached
— verify receipt and manually
add test if needed

5. CER Rules Evaluated

6. Auto-Verification Outcome

7. Result Release
